Product Information

Stays upright

Tilt with mouth

Keeps steady

Hidden Lid™

- **Suitable for many** - helps people in a wide range of situations - such as arthritis, Parkinson's, essential tremor, multiple sclerosis, dementia, Raynaud's, wheelchair, bed bound, sickness, general ageing, injury and more..
- **Stops spills**
- **Increases independence and confidence**
- **Rotatable Handle™** patented technology smoothly rotates 360° enabling you to hold the handle at any comfortable angle and in stable positions, lift the cup without bending your wrist, raising elbow or tilt neck; and, tilt the cup with a unique pivoting action with the mouth, thumb or other hand.
- **Ideal as a feeder cup**, if assistance from others is required to drink.
- **Hidden Lid™** is hardly visible, easy to put on and off the cup with drink and straw hole - helps reduce spills and keep drinks hotter for longer
- **Very lightweight** at 30% lighter than ceramic cups
- **Large handle** for up to four fingers for increased comfort.
- **Standard cup size** of 250 ml (8.5 oz)
- **Microwave, dishwasher and autoclave safe** – making it easier to clean and use.
- **Looks normal** to retain dignity when going out. Indeed, it looks like an elegant bone china cup, but made from BPA free polypropylene plastic. It's shatterproof to avoid breaking if dropped.

“

I bought one for my mother aged 99 who loves her tea each morning. She can now sip her tea confidently.

”

David Stone

“

The cup has been a really successful Christmas gift for my dad. He was impressed and it was so nice to give a man who has everything a gift that is so useful. He is going to recommend this to friends and family.

”

Yvonne Broadley

“

I bought two – one for dad at home and one for when he visits me. He loves it! It's made a huge difference.

”

Sandy
